

### REMARKS

Enclosed herewith is a Substitute Specification in which the specification as filed has been amended in various places to correct typographical and grammatical errors, and to also add section headings.

In support of the above, enclosed herewith is a copy of the specification as filed marked up with the above changes.

The undersigned attorney asserts that no new matter has been incorporated into the Substitute Specification.

The claims have been amended to more clearly define the invention as disclosed in the written description. In particular, claims 1-7 have been cancelled, while claim 8 has been made a proper independent claim and includes the limitations of cancelled claims 4, 5 and 7. In addition, claims 11 and 12 have been made proper singularly dependent claims, each depending from claim 8. New claim 13 has been added and presents the limitations of claim 6 depending from claim 8. New claim 14 has been added and presents the limitations of cancelled claims 1, 5 and 7, along with claim 8. Finally, new claim 15 has been added and presents the limitations of claim 6 depending from claim 15.

In view of the allowability of claim 8, Applicants believe that claims 8 and 11-15 are patentable over the prior art of record.

Applicants believe that this application, containing claims 8 and 11-15, is now in condition for allowance and such action is respectfully requested.

Respectfully submitted,

by
